**GOVERNOR SMALL  
MAY BE ARRESTED,  
JUDGE DECIDES****Will Be Given Time to Personally Present Himself Before Court.****CANNOT CALL TROOPS****Divine Right of Kings Does Not Exist in Illinois and There is no Counterpart of King in State, Jurist Declares in Impeachment Case.**

By Associated Press.  
SPRINGFIELD, Ill., July 26.—Judge Smith, in his opinion on the question of the arrest of Governor Small, for embezzlement, today held that warrants should be served upon the governor, but that the executive should be permitted to make his appearance in his own defense, without a reasonable time. The judge developed his opinion as follows:

"That there is no such thing in Illinois as the divine right of kings and that the king has no counterpart in Illinois. That it is beyond the scope of the governor's power to call state troops to defend him from arrest. That Governor Small, despite his position as chief executive of the state, is subject to arrest and prosecution for his acts as state treasurer. That the statutes of limitation would expire through any prolonged delay in serving warrants upon the governor. That it is not the duty of the court to withhold warrants for the governor. That Governor Small should be permitted to voluntarily present himself before the court. Notification of Governor Small by telephone was the method of procedure decided upon by Sheriff Mestor. 'I may go over for an interview with the governor later,' the sheriff said. 'No attempt will be made to arrest the governor until the matter will be handled.'

**PLAN TO RELIEVE  
ROADS PROPOSED  
BY THE PRESIDENT****Message to Congress Urges Purchase of \$500,000,000 Securities.****NO ADDED INVESTMENT**

By Associated Press.  
WASHINGTON, July 26.—President Harding, in a special message to Congress today, asking it to extend the authority of the War Finance Corporation to purchase securities, probably up to \$500,000,000, now in the hands of the Railroad Administration so that the proceeds may be used for settlement with the railroads.

This, the President told Congress, would open the way to "early adjustment and relief" of the railroad problem. There was not thought, he said, of asking Congress for additional money.

Railway claims, based on the "inefficiency of labor" during the war, the President said, were to be waived for the present to hasten settlement without surrender of any rights in court. Although the railroads owe the government large sums, the President said, the government also owed the railroads large sums on various accounts.

"No added expense," said the President, explaining his request, "no added investment is required on the part of the government; there is no added liability, no added tax burdens."

It is merely the grant of authority necessary to enable a most useful and efficient government agency to use its available funds to purchase securities for which Congress already has authorized the issue and turn them into channels of finance ready to float them."

WASHINGTON, July 26.—After elimination of provisions authorizing the War Finance Corporation to take charge of the railroad debt funding, the bill drafted by Secretary Hoover of the Department of Commerce and Director Keyser of the War Finance Corporation to broaden the corporation's power to provide credits for agricultural exports was introduced in the Senate today by Senator Kallgren, Republican, Minnesota.

**GOOD REASONS FOR  
MAKING ORE SURVEY  
OF PENNSYLVANIA****Chief Is That Other Deposits Will Last For Limited Period Only.****MAY REVEAL NEW BODIES****In Addition to Those Known to Exist and Which Were Successfully Worked When Iron-Making Was a Young Industry in State Giving It Birth.**

HARRISBURG, July 26.—Secretary of Internal Affairs James F. Woodward, through the Bureau of Topography and Geological Survey, has authorized a statement giving somewhat fuller information than previously made public concerning the proposed survey of the iron resources of the state.

Secretary Woodward pointed out that naturally the subject of greatest interest in the survey now under way is the possibility of finding new deposits of large size particularly of magnetite, the magnetic ore of iron. So many requests for information have reached the Department of Internal Affairs recently that the decision was reached to begin the survey at once.

Until 1880 Pennsylvania produced more iron ore than any other state in the union. Since the discovery of the Lake Superior ores, Pennsylvania has dropped back to sixth place and in 1918 produced only the fifty-fourth of the material needed by the 156 furnaces in the commonwealth.

Four reasons for making an immediate study of the state's iron ore resources have been advanced. Briefly they are:

1. The ore of Michigan and Minnesota will last for a limited period only. The time will come when the iron masters of Pennsylvania will demand information regarding iron ores in the state.
2. A never ending series of inquiries has been reaching the Pennsylvania Department of Internal Affairs from land owners as to the possibility and probability of there being iron ore on or under their land.
3. There are a few places in Pennsylvania where iron ore occurs, of such richness and value as to be mined today. Hope is expressed that detailed examination of other places where similar relations of the rocks exist may reveal other new ore bodies.
4. It is of interest and value to know, as general information, how much iron ore is left in Pennsylvania and whether the earlier workings exhausted the iron in the best known pits, scattered over the state or whether the workings were simply abandoned because the ore could not be mined in competition with Michigan and Minnesota ores.

Practically all of the iron ore mined in Pennsylvania today is of the magnetite kind. The iron ore deposits at Boyertown, Fritz Island, St. Peters, Cornwall and Dillsburg show many geological similarities, the association of rocks found at these places being much the same. Similar associations of rocks is known to exist over a broad belt extending from the line south of Gettysburg through Middletown and Pottstown to New Hope on the Delaware river. Tests are being made throughout this district as well as in many other sections of the state.

The work which will be carried on under the supervision of Dr. George H. Ashley, chief of the survey bureau in the Department of Internal Affairs, will be in charge of J. Ross Corbin, who has had a wide experience in the examination of iron ores in Pennsylvania and throughout the United States as well as in the Philippines and China.

**KEYSTONE PLANING MILL MAKES OFFER FOR BARGAIN DAYS**  
Ten Per Cent Off Regular Prices—From Barrel of Lumber to House.

**IMPORTANT TO BUILDER**

In offering to the public of Connellsville something in the line of bargain for tomorrow and Thursday the management of the Keystone Planing Mill company calls attention to the fact that its business is different from that of the ordinary dealer, offering bargains for a single day. It does not carry a way-building materials. Everything is heavy and must be delivered. Consequently a company of this character is at greater expense. Yet its prices are sold at a profit, that of other concerns. Prices of the products of the Keystone Planing Mill company are as low as consistent with good business.

To persons who may contemplate building out of town, for ready-built houses we would have a word to say. We have no means of knowing when this is to be done. If the prospective building contractor is in some way without knowledge of costs and prices of building materials. It may be a carpenter. He will say, "Yes, you can save \$500." But when the purchaser reads away for his materials he never knows himself whether he has saved or lost for the money he has spent. He will not know the local building companies to figure and has no means of comparison.

We believe that if persons contemplating building away for ready-built houses will give us an opportunity to figure the same building costs for them on the ground at quite a saving of money.

Now for our Bargain Day offer: To any person who will take advantage of the offer we will make a 10 per cent reduction from our retail prices, which have been low since a burning small or large quantities of lumber, or other materials for a house complete. This offer is good for Bargain Days only, Wednesday and Thursday—Advertisement.

My kidneys got to acting too freely and my back ached constantly across the small of it. I was hardly able to get around. ## FORCE PRICES DOWN

Extreme Nationalists of Home Using Militant Methods.

ROME, July 26.—The Fascisti, or extreme Nationalists, have now taken a hand in reducing the high cost of living, bringing into their solution of it the militant methods which characterized the recent election campaign.

Their appeals to the storekeepers throughout Italy have not met with that refusal for the storekeepers have advertised reductions ranging from 10 to 25 per cent. The reductions are especially noticeable in the dry goods stores. The effect has been to fill these stores with shoppers. Shoe stores, clothing stores, cafes, restaurants, hardware stores have increased their sales immensely in consequence. The vendors of the prime necessities, however, are having their difficulties. They ask the peasants to reduce the prices to them but the peasants refuse. As a result, the peasants have gone on a strike and refuse to bring the produce into the cities and suffer the regulations imposed by the Fascisti's demands.

A fruit vendor was found selling his wares without any reduction the other day. He was accosted by several Fascisti who demanded that the price be reduced. He remonstrated that he was doing the selling not they. The remark led to a quarrel. The Fascisti clubbed the vendor severely. He was taken to the hospital where he died shortly after his arrival.

In other cities, Fascisti are patrolling the markets. They are armed with policemen's clubs and inquire the prices. If the prices have not been reduced they force the vendor to sell for less.

## DEER SO PLENTIFUL

In Monroe County That Automobiles Run Them Down on the Roads.

By Associated Press.

STROUDSBURG, July 26.—Deer are so numerous in Monroe county that they are running on the highways and within the last few days two have been run down and killed by automobiles.

When Reuben Treble of Shawnee ran into something recently and his car turned turtle, he thought a tree had fallen across the road. Investigation showed a large doe had been killed by the automobile. While returning from Bushkill recently Henry Snyder of Stroudsburg also struck and killed a deer.

TUESDAY EVENING, JULY 26, 1921

**THE VITAL THING FOR VOTERS.**  
Official notice that the date for the  
personal registration of voters in  
Connellsville and other third-class  
cities will be September 1, 6 and 17  
should remind all voters who have  
registered in previous years that they  
must attend to this duty again upon  
one of the three dates fixed. Those  
who have attained the voting age, and  
those who failed to qualify last year,  
should realize that registration is one  
of the requisites to exercising the  
right which is now conferred upon all  
citizens 21 years and older, without  
distinction as to sex.

The prudent voters have learned by  
the experience of themselves and others  
that it is advisable to register on  
the first day set aside for that pur-  
pose. So often has it been true that  
absence from the city, sickness or  
other causes have prevented visiting  
the places of registration on either  
the second or third days that it has  
been found to be much the safer  
practice to go to the polling places on  
the first day the register-assessors sit  
to make record of the duly qualified  
electors of their several precincts.

The election in November is direct-  
ly of more consequence and greater  
importance to the people of Connel-  
sville than was the election a year ago  
when a president and members of  
Congress were chosen. Then the vot-  
ers were interested in party issues in  
a nation-wide campaign. This year  
they should be even more actively in-  
terested in deciding who shall be con-  
stituted with the responsibility of  
managing the affairs of our own  
municipality.

The mayor, members of the city  
council and members of the school  
board elected this fall will deal with  
problems affecting every taxpayer in  
the city, hence the character, qualifi-  
cations and fitness of the persons  
placed in office is a matter about  
which every citizen entitled to qual-  
ify as a voter should have a very lively  
concern. If otherwise they may later  
have occasion to very deeply regret  
the indifference which caused them to  
neglect or disregard the duty of reg-  
istering and voting.

To better safeguard against mis-  
takes being made in the choice of  
municipal officers at the November  
election, wise discrimination must be  
made by the voters at the primary  
to be held on September 20. Voters in-  
terested in securing the nomination  
of candidates who may not measure  
up to the requirements of the office to  
which they aspire will be certain to  
overlook no step necessary to qualify  
themselves for voting, neither will they  
fail to be at the polls on primary day.

To the extent other citizens, who  
profess a great concern or talk much  
about the kind of men to be elected to  
the city offices, but who fail to pre-  
pare themselves to take part in ac-  
tively judging the best, but so cer-  
tainly will the element having oppo-  
site views and desires be successful  
in controlling the primary. If the  
two tickets are thus nominated the  
voters at the November election will  
have no choice but to vote for the  
least objectionable candidate or not  
vote at all. "The result in every case  
will be that the lofty purposes of the  
reputably good citizens to "clean  
house" will avail nothing.

The vital thing, therefore, for every  
citizen who realizes the desirability  
of having the best qualified persons  
in office is to take every step require  
to give force and effect to their good  
intentions, when they vote at both the  
primary and the general election.

The prize gardens at the coke  
plants this summer will help to make  
up the difference between the prize  
pays of a year ago and the slender  
pays of today.

The Sunday school picnic has the  
family reunion as an active rival for  
popularity this summer.

You ought to think of September 1  
as the only instead of the first day  
for personal registration in Connel-  
sville. If you do you will be less like-  
ly to forget the important duty of the  
day.

**Exceeding His Authority.**  
Forces Magazine. In New  
York City had the happy faculty of  
letting his employees know at all times

One day one of his employees re-  
marked: "It looks as though we're  
going to have a real party."  
"Yes," replied the employer, "but  
before going to have a party, I want  
to know if you are a member of the firm."

**All the Demos Have to Do.**  
"Democracy in the Senate," spread  
whole day in criticizing the administra-  
tion, but then there isn't much else  
for them to do.

### Cat Helps Self To Chicken at Pechin Picnic

Special to The Courier.

DUNBAR, July 26.—One of the most  
picnics held in this section in  
many a day was that of Pechin Union  
Sunday school last Thursday evening  
on the lawn at the residence of Harry  
L. Baker on Penguin road. About  
300 persons participated and for  
once, in spite of the ravens' appet-  
ites characteristic of growing boy-  
hood, everybody present had all he  
could possibly eat, and there was quite  
a quantity left over, and Mr. Baker's  
chickens had enough scraps to last  
them all the next day.

While the crowd was gathering Mr.  
Baker played a number of fine selec-  
tions on his phonograph and these  
were much enjoyed. The tables,  
which extended 50 feet, were spread  
on the lawn west of the house.  
There was one member of the com-  
pany, an invited guest, who did not  
wait. This was Mr. Baker's pet cat.  
Watching her chance she purred  
around until near the table and then,  
with her usual dexterity, dashed past  
the watchful eyes of Jack McClain,  
seized a good-sized piece of chicken  
and disappeared.

After the feast those of the young  
people who were able to get about  
played games of various kinds until  
twilight deepened into darkness, and  
all went home joy in their voices  
of the picnic and thankful to Harry L.  
Baker for his liberality in allowing  
them the use of his lawn.

**Cornstones Told.**  
The cornstones of the Somerset  
Church of the Brethren was laid Sun-  
day afternoon, with a number of min-

ing part in the exercises.

### ADVICE AND AID.

I met him on the highway and his  
plight was sad to see.  
His clothes were stained and dusty and  
as shabby as could be.  
Says he: "I need assistance and I'm  
asking it from you."  
To which I glibly answered: "Friend,  
I'll tell you what to do."

Ran him true to common custom, I be-  
gan to work my chin.  
Saying: "Pull yourself together and  
some day you'll surely win,  
Or the cheapest lot of dinner, I'm  
not hungry for advice.  
You can conquer if you will."  
But he grinned a bit and answered:  
"Mister, get me, I am ill."

"I am sick and I am weary and I  
haven't got the price  
Of the cheapest lot of dinner, I'm  
not hungry for advice.  
And right now your sermon's wanted,  
although I'm in your need.  
It's not advice I'm after, I'm a little  
help I need."

Now that fellow's got me thinking,  
He's been in my mind all day.  
I can see his gloomy figure slowly  
struggling down the way.  
But I learned from him this lesson,  
which I'd never thought about—  
Better far than words of wisdom is to  
help a fellow out.

MT. PLEASANT, July 26—Five boys

rested and brought before Burgess S.  
P. Jones last evening charged with  
playing ball on Sunday, on the Main  
street just below the Mission Church

It was incorrectly reported in this

of the Peterson Business college had  
been elected teacher in the commer-

that Mr. McLean had completed a  
lease for the boys' dormitory and ar-  
ranged for a complete remodeling of  
the interior to adapt it to the purposes  
of a private business college the opening  
of which will take place on Tues-

## Sport News

The Methodist Episcopal church league team got back into first place last evening when it defeated the United Brethren outfit, 5-2. The M. E. team, together with the Lutherans and United Presbyterians, are now tied for first place.

The M. E. aggregation got right down to work in the first inning, scoring three runs. Sherick, one of the heaviest hitters for the Methodists, connected for a home run in the opening frame and brought one man in ahead of him. Later, while tagging a runner at second his wrist was twisted in such a way that he suffered a severe sprain. If the bones are not broken the accident will probably keep him out of the game for the remainder of the season although he finished last night's contest. Jones had 13 strike-outs.

The score by innings:  
United Brethren — 020 000 0—2  
Methodist Episcopal — 301 010 x—5  
Huey Francis and Swisher Jones and Buttermore

Manager Sheering has booked the Young Valley and Conneville Independent for games in August, and Captain figures both games as soft at the pace it is now setting.

The Captain team would like to hear from all first class teams as six games have been cancelled on the outfit in the last two weeks. Call Captain Glass company at the Atlas hotel between 7 A. M. and 7 P. M.

# Better Gasoline

Early in the season this year's Atlantic was announced as a still better gasoline. Quicker on ignition, greater in calorific units—distinctly snappier and more powerful.

Now keen observers—motor car and truck owners—whose choice of a gasoline is based on long-period test and carefully kept records—will tell you that it is *fact*.

You too can prove the superior quality of Atlantic. You'll find evidence on the hills—where you need definite, dogged punch behind every piston stroke. At the traffic crossing—where quick getaway and rapid pickup are the joy of every driver.

And in the mileage you get! There on the dial of your recorder you have the *visual* evidence that today's Atlantic carries you farther per gallon than any gasoline you've ever used before.

### FREEDOM OF LEPERS

Protested Against By Portugal News-paper Urges Confinement.

being conducted by the Seculo, the most widely-read newspaper in Portugal, against the freedom allowed to lepers in this country and the effects of their contact with healthy people.

Portugal has the sad privilege of possessing the greatest number of lepers in any European country. Steps are already being taken to, at least, reduce the danger of contagion inside the hospitals.

Foreigners who visit this country are shocked at the sight of tipless, noseless lepers of both sexes begging in the streets or selling toys and sweets to poor children. The Seculo asserts that one leper boy is employed at milking the cows in a dairy.

These facts, added to statements made by leading physicians as to the danger of contagion, have so alarmed the population that it is thought that public opinion will force the authorities to adopt strenuous measures.

Dr. Hermanno Medeiros, director of the Lisbon hospital, recently placed all the lepers in that institution in separate pavilions and, even, surrounded a large area with wire hedges beyond which the lepers are not allowed to pass. The result was that nearly all of them asked to be discharged and in compliance with the rules, they were allowed to go. The director suggests that all lepers be segregated.

### Elaborate Program For Annual Supreme Council of K. of C.

Special to The Courier.  
SAN FRANCISCO, July 26.—Final details of the elaborate program to be presented the 20,000 visiting delegates, Knights and their Ladies, to the 32nd annual international supreme council of the Knights of Columbus, have been worked out jointly by the citizens committee and "Casey" general committee. Although the formal business sessions of the supreme convention will occupy August 2, 3 and 4, the entertainment program will commence Saturday, July 30, and cover an entire week.

The first day of the formal business sessions of the supreme convocation will be the most brilliant date in the gathering of any organization in the history of this city, leading to the grounds of the Old Mission Dolores church, the oldest church in this city, having been erected in 1776 by the lady Franciscans. Here, on the grounds of the beautiful Notre Dame convent, next the Old Mission, pontifical high mass will be celebrated by Rt. Rev. P. J. Keane, coadjutor-bishop of Sacramento. Archbishop Edward J. Hanna of San Francisco will deliver the sermon.

Following the ceremony of presenting the keys of the city to the Supreme Knight and visiting Knights, by Mayor Joseph Rolph, Jr., at the city hall in the civic center, the initial business session will take place at the St. Francis hotel. All business sessions will be closed affairs open only to third and fourth degree Knights of Columbus.

The magnificent program planned for the night of Tuesday, August 2, will be under the joint direction of the citizens and Knights of Columbus committees, headed by Harry J. Mulvey, chairman. The massive civic auditorium of San Francisco, ideally situated in the civic center of the city, will be gorgeously decorated and brilliantly lit for the gala function, which is to take first place among the great events in the social life of the city. Twenty thousand people will attend the public reception, which will include an excellent entertainment program, band, concert, organ recital and dancing. Addresses are to be delivered by the representatives of President Harding, Governor William D. Stephens, Mayor Joseph Rolph, Jr., Archbishop Edward J. Hanna, D. D., Supreme Knight James A. Flaherty and Supreme Director William P. Larkin of the Knights of Columbus.

The two days following will include dancing, tours, theatre parties, Monte Tamalpais excursions, picnics, teas and social functions for the ladies, making up a busy round of entertainment for the entire week.

H. B. Brown, grand knight of Youngbloods council, Conneltsville, is now enroute to San Francisco as official delegate. He is accompanied by Mrs. Brown and Miss Anna Torrey.

Uninterrupted Business.  
"I shall continue to direct our affairs from the jail," said the convicted grafter.  
"All right," replied the trusted lieutenant, "maybe in the course of time we can get enough prison reform to reformulate a law that they'll have elevators and telephone exchanges and all the conveniences of regular office buildings."

Boston Chamber Largest.  
With a membership of 7,300, the Boston chamber of commerce has become the largest commercial organization in the world.

## At the Theatres

**THE SOISSON.**  
**"THE WAKEFIELD CASE,"** the feature attraction today, presents Herbert Rawlinson in a delightful role. London, the city of mystery, hiding place for the master criminals of the world. The city which inspired Dickens to write of Fagin, Bill Sikes and the Artful Dodger. The city where Conan Doyle's famous detective, Sherlock Holmes, hunted in the underworld for blarney and wily adventures. The home of Scotland Yard and that other equally famous, if not as well known, detective agency, "Wakefield's." The firm of Wakefield had but two partners, William Wakefield and his son, William, Jr. Known the world over as "Wakefield, Sr." and "Wakefield, Jr.," Englishmen in profession, but American both in birth and heart. Both Sr. and Jr. are in London on the trail of the famous Randall rubies, whose disappearance caused an international sensation and baffled the police of two continents. Wakefield, after months of search, have located these celebrated gems in the hands of Krogan brothers, Richard and James, known as the two cleverest crooks in London. You can see for yourself what happens when you see the picture.  
 Tomorrow and Thursday: Alma Rubens will be seen in "Thoughtless Women."

**THE PARAMOUNT.**  
**"THE DANGEROUS MOMENT"**—an entertaining picture, with Carmel Myers, the beautiful screen star, in one of the best roles of her screen career, is the feature attraction today.  
 "The Dangerous Moment" takes the descriptive powers of a reviewer. Following many big and successful productions it stands out as a picture which is 100 per cent entertainment—a picture of no regress—geared to the heart with a leading role and a sporty language and evidence that the quality goes clear through.  
 Greenwich Village, New York's car-free Bohemian quarter, is the background against which the story is told. The opening scenes show Miss Myers as a waitress in a noisy little cafe. The Black Beetle. No sooner has the locale been established than a sensational murder is committed. The little waitress is accused. Fleeing from her pursuers she hides in the studio of a young artist. With that flying start the story takes every dramatic hurdle ever conceived and goes into a full-on in the climax. The story is told so that the craft is to be shattered against the rocks of reality. It lifts and zooms off to a fade-out that will be amply pleasing to anyone who likes things to turn out well.  
 Tomorrow and Thursday "The Big Adventure," with "Breezy" Eason, the wonderful boy actor, in the leading role will be shown.

**THE ORPHEUM.**  
**"THE CHARM SCHOOL"**—in which Wallace Reid has the role of an auto salesman, is being shown today as the feature attraction. In screen stardom, the name of Wallace Reid stands high. The popularity of this star is increasing by leaps and bounds and every new picture in which he appears, is heartily welcomed by his admirers.  
 Mr. Reid has had a more congenial role than that of the young superintendent of a school. Among the 50 beautiful girl pupils is Ella Lee and when a romance develops between the superintendent and herself, there is something doing every minute. The story was written by Alice Duer Miller and the director was James Cruze. The climax is a surprising one and will interest every spectator. Please come early.  
 In the role of Austin Bonanza, Mr. Reid says "no." When he inherits a young ladies school from his aunt he changes it from a school of business instruction to a so-called "charm" school, wherein the pupils are taught how to be charming, by lessons in Greek dancing, delirious, fancy swimming, diving, elocution, etc.  
 Tomorrow and Thursday "End Denet" will be seen in "Silk Stockings."

Mrs. Linda Harrod Endorses Chamberlain's Tablets.

"I suffered for years with stomach trouble and tried everything I heard of but the only relief I got was temporary until last spring I saw Chamberlain's Tablets advertised and procured a bottle of them from our drug-gist. I got immediate relief from that dreadful heaviness and pain in the stomach after eating. Since taking two bottles I can eat anything I want without distress," writes Mrs. Linda Harrod, Fort Wayne, Ind.—Advertisement.
